

IRON DRIVE

Off-Site

The starting point for any secure Disaster Recovery plan starts with a 3-2-1 solution. 3 copies, 2 onsite, and 1 off-site with Iron Drive.

Air-Gapped

Physically isolated, off line, archival storage for maximum security and integrity.

Accessible

Easily bring your storage online, securely and remotely for ongoing restores and updates.

Safe

Physically secure:

- Fireproof, up to 1550 degrees F, for 1/2 hour.
- Floodproof, submersion of 10 ft. for 72 hours, fresh or salt water.
- Theftproof, secure building with camera surveillance, individual physical locking.
- Physically segmented storage.
- Human supervised access.

Affordable

Professionally curated, secure, accessible archival storage - monthly pricing based on media/data size.

Buy an Iron Drive now! No quotes, no sales people, simply order your Iron Drive to safely and securely copy your mission critical data off-site today.
